

The Peregrine Falcon class given by Floyd Scholz was by far the best, well-conducted carving class I have ever had. Floyd's no-nonsense way of explaining the different techniques made the class relevant, accurate and highly informative. There is no wonder why Floyd is the BEST raptor carver of our time. The setting provided by the Harrisons takes outstanding teaching and couples it with a fantastic setting, down-home hospitality and spacious areas for students to learn. Doug and Gerri you guys are the Best!

The class (Floyd Scholz 2012) points out the most efficient and productive ways to produce a very artistic piece of work. The instruction is in a straight line method that allows carvers of various experience and abilities to improve their skills more than they could on their own in several years. You learn the latest techniques from the best, with nothing held back, You will get your monies worth.

I've had such a wonderful time and learned so much during these 10 dates with Floyd. The accommodations and professional, fun-filled atmosphere accentuated the experience. Doug and Gerri were wonderful hosts and the meals were outstanding. The Harrison Artistry in Wood studio will become a destination for carvers and students of carving from across the country.

Doug and Gerri provided a wonderful experience. Instruction was the best. Hosts always asking what you needed. The hospitality was unsurpassed. All in all, the best I have ever experienced. Cannot believe they have only lived there for 3 months.

How could you not like the combination of a great teacher, Floyd Scholtz, a challenging subject, a full sized Peregrine Falcon and an outstanding venue. Harrison House in Bend, Oregon. Doug and Gerri Harrison made it a joy to participate in their first carving seminar since their move to Bend a couple of months ago. My only complaint is the unfortunate weight gain enabled by the really great food.
